

INFORMATION FOR PARENTS

The workshops are part of the EnvironMINT research project. We investigate how young people can be creatively excited about MINT topics (mathematics, computer science, natural sciences and technology).

OPEN EVENING FOR PARENTS

As parents, you are cordially invited to an open evening in the Green FabLab. Immerse yourself in the magic of a FabLab and get information about how you can support your child's activities.

The parents' evening will take place on December 1st, 2023 following the first individual workshop from 6-7 p.m.

GREEN FABLAB YOUNG CREATIVES

Make your ideas come true!

You think you don't have any?
Just come over!

WHAT IS A FABLAB?

A FabLab is a place where you can use 3D printers, laser cutters, vinyl plotters, laptops and much more together with others.
We support you!

Would you like to design a piece of clothing individually?

Do you need a cool holder for your controller?

Do you want to program your own game or compose your own music?

How about your own decoration for your room?

Do you want to fly a drone or build something for nature observation?

WORKSHOPS

For children and young people aged 10 to 16

WORKSHOP DATES 2023

12/01/2023 | 3 p.m. - 6 p.m. Design your own item of clothing, a fabric bag or create your own stickers for your cell phone or laptop.

12/08/2023 | 3-6 p.m. Program your own game or compose your own music with "Scratch".

12/15/2023 | 3-6 p.m. Design your own objects and print them with a 3D printer. Maybe you can use it to give someone a great Christmas present?

CREATIVE FEBRUARY 2024

Become part of a whole series of workshops and work on your own idea together with others for 4 weeks!

Friday, February 2nd, 2024 | 3-6 p.m.

Friday, February 9th, 2024 | 3-6 p.m.

Friday, February 16, 2024 | 3-6 p.m.

Friday, February 23, 2024 | 3-7 p.m.

from 6 p.m. Closing event with family and friends

HOW MUCH DOES IT COST?

NOTHING!

Since the workshops are part of a research project, we can offer them free of charge.

We are therefore looking forward to your opinion on the offers! With your help, we would like to further develop the offers together.

REGISTRATION

Pre-registration from parents is required for each individual workshop date and for the "Creative February 2024" workshop series. There are two options for this:

Online at <https://fablab.green/wp/young-creatives/>
In person at the Green FabLab every Friday from 9 a.m. to 3 p.m.

**LIMITED SPACES!
REGISTER QUICKLY!**

Address: GREEN FABLAB
Friedrichstraße 2a, 47475 Hamp-Lintfort
(in the Zechenpark, next to the Hall of Fame cinema)

The venue is barrier-free.
